

By taking in the consideration the impact and scale of the institution's activities, the local community is one of the most important stakeholder of Liepajas RAS Ltd.

In accordance with "Medium-term operational strategy of Liepajas RAS Ltd. for 2021 - 2023", we have defined the areas and principles of communication and cooperation with the local community.

Our priority is to educate the local community, protect the environment, promote the participation of civil society and a healthy lifestyle.

For the best result, we:

- we inform the inhabitants of Liepaja waste management region about the rational and responsible waste management system;
- we educate about environmentally friendly and responsible lifestyle, emphasizing the field of waste management;
- we encourage the ideas and initiatives of our employees;
- we cooperate with local governments, various organizations and educational institutions.
